SUMMARY

I am a 4th Year, Bachelor of Science in Information Technology student with experience in graphic design, digital content creation, social media management, and web development. Seeking opportunities to apply my technical and creative skills in a professional environment while gaining practical experience and developing my expertise.

PROJECTS, ASSIGNMENTS, AND WORK EXPERIENCE

ALON — Social Music Platform

May 2026

- Assisted in developing a social music platform using Python, Django, JavaScript, HTML, CSS, and SQLite, allowing users to upload music, create playlists, and interact through a community feed.
- Implemented features including user authentication, personal music libraries, playlists, community posts, and music discovery through an external music API.
- Designed the platform's UI/UX and visual identity, creating a responsive interface centered around a vinyl-inspired music theme.

JTD Logistics — Branding & Social Media Management

2025

- Designed the company's logo and wordmark and established its visual identity.
- Created and managed its Facebook page and published content showcasing completed orders and services.
- Responded to customer inquiries and communicated with potential customers regarding services.

DEIZ Charters — Social Media Management

Feb 2026 – Present

- Manage social media content for a three-apartment rental business.
- Create promotional posts and respond to inquiries regarding availability, pricing, and accommodations.
- Communicate with potential customers throughout the inquiry and booking process.
